Letter of commitment to the priorities of the Concordat for the Environmental Sustainability of Research and Innovation Practice

I, Dr Eliat Aram, on behalf of the Tavistock Institute of Human Relations (TIHR), confirm our commitment to the priority areas outlined in the Concordat for the Environmental Sustainability of Research and Innovation Practice.

The TIHR fully supports the priority areas outlined in the concordat. We will deliver against all the priorities in practice and recognise our responsibilities as a signatory, as set out in the concordat.

By signing this concordat, we recognise the need to change how we conduct research and innovation as well as promote wider solutions. We also agree to take shared action now and into the future to reduce and eliminate our own environmental impacts and emissions and achieve the transition to sustainable practices.

The priority areas of The Concordat accord closely with our organisational values and practices, in that they combine the aim of generating system wide change with an emphasis on leadership in our sector, with practical and measurable steps to reduce environmental harm.

Yours sincerely,

Eliat Aram
